

IMPEX s.r.l.

Safety Schedule

from 30.04.2008

INTONACO RIVIERA 0,7 - 1mm

1. IDENTIFICATION OF THE PRODUCT AND THE COMPANY

Commercial name	INTONACO RIVIERA 0,7 - 1mm
Type of product and use	Water based decorative acrylic coating.
Manufacturer	IMPEX COLOR s.r.l. Via Pareto, 19 – 31030 Dosson di Casier (TV) ITALY

2. COMPOSITION – INFORMATION ABOUT THE INGREDIENTS

Composition	Water, titanium dioxide, selectioned calcites, mineral extenders, styrol-acrylic emulsions, siliceous sands and additives.
Substances included which are a health risk according to the directive 677548/CEE and successive modifications, or for which there are known limits of exposure.	None.

3. IDENTIFICATION OF DANGERS

	No specific danger verified in normal use.
Labelling	Xi, irritant for eyes and skin.

4. FIRST AID MEASURES

Contact with the skin	Wash immediately with plenty of water. Remove contaminated clothing. If irritation persists, seek medical attention. Wash contaminated clothing before using them again.
Contact with the eyes	Irrigate copiously with clean, fresh water for at least 15 minutes. Seek medical advice.
Inhalation	Remove to open air. If breathing is irregular, seek medical advice.
Ingestion	Obtain immediate medical attention. Induce vomiting only if indicated by the doctor. Never give anything by mouth to an unconscious person.

IMPEX s.r.l.

5. FIRE PROTECTION

Extinguishing methods	Water, fire extinguisher.
Types of extinguisher not allowed	None.
Risks from combustion	Avoid breathing fumes.
Means of protection	Hardhat with visor, fireproof clothing (fireproof jacket and trousers with straps around arms, legs and waist), work gloves (fireproof, cut proof and dielectric), a depressurized mask with facemask covering the whole of the operator's face or a self-respirator (self-protector) in the event of large quantities of foam.

6. MEASURES AGAINST ACCIDENTAL SPILLING

Precautions for individuals	Eliminate all sources of ignition (cigarettes, flames, sparks, etc.) from the leakage site. If there are no contraindications, spray solid products with water to prevent the formation of dust. Use breathing equipment if fumes or powders are released into the air. Block the leakage if there is no hazard. Do not handle damaged containers or the leaked product before donning appropriate protective gear. For information on risks for the environmental and health, respiratory tract protection, ventilation and personal protection equipment, see the other sections of this sheet.
Precautions for the environment	The product must not penetrate the sewers, surface water, ground water and neighboring areas.
Cleaning methods	Use inert absorbent material (sand, vermiculite, earth, etc.) to soak up leaked product. Collect the majority of the remaining material and deposit it in containers for disposal. If there are no contraindications, use jets of water to eliminate product residues. Make sure the leakage site is well aired. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

7. HANDLING AND STORING

	Store in a well ventilated place, keeping the containers closed when not used. Do not smoke while handling. Keep far away from sources of heat, bright flames and sparks and other sources of ignition.
--	---

8. INDIVIDUAL PROTECTION

Respiratory protection	Not necessary for normal use.
Protection for hands	Use protective gloves.

IMPEX s.r.l.

Eye protection	Use protective goggles.
Skin protection	Avoid direct contact, wear suitable clothing.

9. PHYSICAL AND CHEMICAL PROPERTIES

Colour	White and the colour chart shades
Odour	Characteristic
Appearance	Paste
Solubility	Mixable in water
Viscosity	35000 cps
pH	8-9
Flash point	100 °C
Specific gravity	1,650 Kg/l
VOC (Directive 2004/42/EC)	40,00 g/lt max
Vapour pressure	Not available

10. STABILITY AND REACTIVITY

	The product is stable in normal conditions of use and storage. Due to thermal decomposition or in the event of a fire vapors may be produced potentially dangerous to health. Propylene glycol: it is hygroscopic, stable at normal conditions; at high temperatures, it tends to oxidize yielding propionaldehyde as well as lactic and acetic acid.
--	---

11. TOXICOLOGICAL INFORMATION

	According to currently available data, this product has not yet produced health damages. Anyway, it must be handled according to good industrial practices.
--	---

12. ECOLOGICAL INFORMATION

	Non-aromatic mineral white spirits tends to be distributed exclusively in the air where it is photodegradable. The small amount that remains in the water tends to deposit at the bottom and is biodegraded; it is thus not bio accumulated by fish. In the soil the substance remains absorbed and is unable to reach the subterranean layers. Use this product according to good working practices. Avoid littering. Inform the competent authorities, should the product reach waterways or sewers or contaminate soil or vegetation.
--	---

13. WASTE DISPOSAL

IMPEX s.r.l.

	According to the local legislation in force.
--	--

14. TRANSPORT INFORMATION

	This substance is not dangerous under current provisions of the Code of International Carriage of Dangerous Goods by Road (ADR) and by Rail (RID), of the International Maritime Dangerous Goods Code (IMDG), and of the International Air Transport Association (IATA) regulations.
--	--

15. INFORMATION ON REGULATIONS

	This product is not subject to hazard labeling under the 67/548/EEC and 1999/45/EC directives and following amendments and adjustments.
--	---

16. OTHER INFORMATION

	The information contained here is based on our knowledge on the above indicated date; it refers exclusively to the product indicated and does not constitute a guarantee of particular quality. The user should check the suitability and correctness of the information in relation to any particular use.
